

Daspos Proactive protection through advanced detection

Traditional fire detection systems react only after a fire has started. Using unique airflow technology, Daspos systems' identifies oil mist and gas leaks before they reach ignition, eliminating fire risks before they escalate.

PROACTIVE FIRE PREVENTION

Daspos systems doesn't just detect fires - it prevents them. The system identifies potential risks like oil mist and gas leaks before ignition occurs, giving you time to take action before disaster strikes.

COMPREHENSIVE COVERAGE & 24/7 MONITORING

With the ability to monitor up to 96 zones simultaneously, Daspos' systems provides continuous protection, ensuring that even the most hard-to-reach areas in the engine room remain under constant surveillance.

RELIABILITY WITHOUT FALSE ALARMS

Engineered for accuracy, Daspos's dual detection technology eliminates false alarms, reducing unnecessary disruptions and providing only real-time, actionable alerts that keep operations running smoothly.

SEAMLESS INTEGRATION & EASY MAINTENANCE

Designed for flexibility, Daspos' systems integrate effortlessly into existing Consilium fire safety systems. With easy installation and minimal maintenance requirements, it's a reliable investment in long-term safety.

PREVENTION IS CRUCIAL – THE FIRST MINUTE IS FREE OF CHARGE

2/3 of the fires onboard ships starts in the engine room and the majority comes from oil leaks.

Using unique airflow technology, Daspos Systems' identifies oil mist and gas leaks before they reach ignition, eliminating fire risks before ignition.

Easily integrated into existing Fire detection systems

The LAS-10 All-in-One Detector upgrades existing fire detection systems through seamless integration into the fire detection loop. With minimal cabling and setup, it eliminates the need for extra monitors or hardware.

Once in place, the LAS-10 detects oil mist and gas leaks, triggering a pre-alarm in the fire detection system for enhanced safety. For improved alarm visualization, it can also connect to the SMiG system.

GLOBAL SUPPORT WITH LOCAL EXPERTISE

Consilium offers fast and accessible support no matter where you are in the world. Nothing beats local expertise in your language. With a service network spanning over **55 countries** worldwide and local market companies in **29 countries***, we ensure accessibility anywhere you operate.

* **Europe:** Belgium, Bulgaria, Cyprus, Denmark, Finland, France, Greece, Italy, Netherlands, Norway, Spain, Sweden, Germany, UK
North & South America: Brazil, Canada, Costa Rica, USA
Asia & Oceania: Australia, China, India, Japan, Oman, Qatar, Saudi Arabia, Singapore, South Korea, United Arab Emirates, Vietnam

As much as we are proud of our success, our commitment is to ensure safety. We have pledged to protect the lives of mothers and fathers, sisters and brothers, colleagues and friends. Our work never ends. That is why we keep innovating.
